IPCC AR7 Figure design

- **GitHub:** <https://github.com/IPCC-AR7-WG1/figure-design/tree/main>
- Code example for creating IPCC AR7 figures
- Jupyter notebooks for line and map plot
- Color maps (as txt + code to convert them to python color maps)
- Icons (*.svg and *.png), e.g. Atmosphere, Cryosphere, Land, Ocean

- Based on AR6, but new thing will be added
- Include any of this to ESMValTool (e.g. color map)/ take into account for REF diagnostics?
- Example recipe?
