Basic and advanced
tutorial
Developing and
deploying Software
training

Social media profile?

Tweets about:

- Releases
- Publications
- Events (e.g. EGU, workshops)

→ removed inactive members from UET mailing list and GitHub team

Tutorials:

- Update of almost all tutorial lessons
- Open: general updates and adding of new tutorial lessons
- Done:
 - Tutorial for NatESM master course at University of Cologne (Nov 2025)
 - Tutorial at APARC workshop and training school in Senegal (Nov 2025)
 - Tutorial of basic and advanced lessons for AI4PEX, ESO4Clima, AIVAL and TerraFIRMA members (3rd Dez and 23rd April 2026)
- Tutorial of basic lessons at LST-CCI workshop (14th May)
- Tutorial for ECS at APARC General Assembly in October 2026 in Pune, India

Outlook

- Tutorial for IPCC authors in Oct/Nov 2026?
- ESMValTool LinkedIn account?
- Analysing statistics on traffic on the website and documentation (→ Bouwe?)
- Migrating documentation to Diataxis and Sphinx - to be kept in mind and acted upon with potential funding
- Migrating tutorial from Carpentries to rst-format (same as documentation)
